## **Results Summary 2016**

NB: These results are unvalidated and will be updated once RAISE online and Level 3 Value Added data is received in January 2017.

## **Introduction**

This booklet has been produced to provide a summary of the performance of students at key stage 4 and 5 in the Summer of 2016.

It is important to note that vast changes are taking place in terms of exam protocols and performance measures, making year on year comparisons of results challenging.

Where possible we have presented the data using both old and new measures of performance in order to provide the fullest picture possible. However it is important to note that all data in this report is unvalidated and therefore subject to change.

For the latest validated outcomes please see the information provided on the DfE website - <https://www.compare-school-performance.service.gov.uk/find-a-school-in-england>

If you have any questions concerning the outcomes in this report please do not hesitate to contact the school on 01132844020.
